Vancouver, Canada

SUMMARY

- Skilled and results-oriented software architect and engineer with over 10 years of solid experience working in technology architecture, design prototyping, and both waterfall and agile/scrum methodologies.
- Proven ability to leverage full-stack knowledge and experience to build out ideas with modern technologies and best practices.
- Have a deep understanding of mobile/web software application, and have the business acumen to make the projects successful.

EXPERIENCE

Full Stack Developer (React, React Native, ASP.NET)

Apeak Tennis

05/2022 - 10/2023 Remote

Apeak is the first mental training app made for tennis players in pursuit of peak performance.

- Developed, tested, and maintained application with clean code.
- Participated in software design and code reviews to ensure delivery of quality products and enhance skill sets.
- Mentor and lead the development team to speed up the development speed.
- Maintained Azure Kubernetes Services to make sure production API is working properly.
- Practical experience of best practices for the full software development life cycle, including coding standards, code review and testing.
- Tackled performance bottlenecks and drive improvements in frontend and backend infrastructure
- Shared software development best practices with the team and mentor junior engineers

Full Stack Developer (React, React Native, Node.js, Web3)

VelloWeb

03/2019 - 04/2022 Remote

Worked on e-commerce platform via VelloWeb.

- Designed the main architecture and developed whole features for the underwriter application and customer portal.
- Designed the test flows, wrote unit tests using Jest, and integrated e2e tests using Cypress, keeping 80% code coverage.
- Performed design and code reviews, shared knowledge, and contributed to system architecture design decisions.
- Introduced and configured the application to use Git for the linting, testing, and deployment.
- Improved UI for new homepage and checkout page based on Figma design.
- Built 200+ reusable components using Storybook.

SKILLS

Javascript Typescript React

React Native GraphQL Next.js

Tailwind CSS Redux-Saga Redux

Redux-Thunk HTML5 CSS3

SCSS Webpack Vue.js

Objective-C Swift Java Kotlin

Gatsby C# ASP.NET Node.js

Ruby on Rails Python Django

Electron Desktop App Development

Angular MaterialUI Bootstrap

STRENGTHS

Love for the Industry

Doing my job with great love and passion helps me stay motivated at all times.

Time-management

Able to divide my time in the most optimal way possible.

Delivering Results

Focus on the key inputs and deliver them with the right quality and in a timely fashion.

Communication

I am a consul (ESFJ-A Myers-Briggs test) and collaborator (Predictive Index test). Clear objectives, good communication, and timely feedback are the key to success.

Dedicated team player

I strongly believe that there is nothing more powerful than a group of hardworking passionate people with a common goal.

Constant learner

I love to build up, advance and strengthen my knowledge. Keeping pace by actively learning new skills and sharing knowledge.

EXPERIENCE

Full Stack Developer(React, React Native, Vue.js, Ruby on Rails)

VelloWeb

📅 08/2016 - 02/2019 📍 Remote

Worked on writing platform via VelloWeb.

- Produced product roadmaps and project plans and tracked progress while controlling performance metrics.
- Coordinated and supervised completion of deliverables defined by project scope statements.
- Improved the web development workflow and drove initiatives for performant, well-tested code and an architecture that reduced redundancy.
- Collaborate with PM, designer, and other engineers to co-create and execute on the technical roadmap for product, Plugins Platform, and Collaboration features.
- Improved product performance and reliability by building new features or polishing existing parts of the product.

Full Stack Developer(React, React Native, Vue.js, Node.js)

VelloWeb

📅 04/2015 - 07/2016 📍 Remote

Worked on fitness platform via VelloWeb

- Run and monitor software performance tests on new and existing programs for the purposes of correcting errors, isolating areas for improvement, and general debugging.
- Assisted in defining mobile application architecture and best practices.
- Improved code quality through automation and performing code reviews.
- Created responsive and accessible web front-ends with a mobile-first mindset.
- Collaborated with Designers, Product Managers, and other Engineers to implement intuitive user experiences.
- Contributed to implement back-end services and distributed systems when needed

LANGUAGES

English
Proficient

EDUCATION

Bachelor's degree, Computer Science

Liaoning Technical University

📅 2008 - 2012
